Budding Worries

Do you also have things you worry about, Takashi kun?
Hmm. I guess the fact I can't level up?
Is that so..
But...
My heart feels a lot lighter now that I've met you again, Megumi-chan.
Oops, look at the time. I'm gonna be late for meeting up with Daichi and the boys.
See you tomorrow, Sensei!
Today.. Takashi-kun called me Megumi chan"..
I didn't mishear it did I..? I feel like I asked him to call me by my name when we were at the bar last time, but I was too drunk so I don't remember very well..
Does this mean it's okay for us to get closer to each other..? If that's the case, should I be more assertive from now on..?
Her worries ended up increasing.
